

SHEIKH MUQTASID

SOFTWARE ENGINEER

+92 3330919080 Township Mansehra Sector H 121 sheikhmuqtasid@gmail.com

PROFILE

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React, and Node.js. Currently working as a MERN Stack Developer Intern at Ptalnex, contributing to real-world projects involving secure authentication, REST APIs, dashboards, and role-based systems. Also experienced in Flutter mobile development and Firebase. Passionate about scalable systems, clean architecture, and modern web technologies.

EDUCATION

2021 - 2025

CUST
Islamabad

BS Software Engineering

Studied programming, app development, web technologies, Firebase, Google APIs, and basic game development.

2019 - 2021

Jinnah College
Mansehra

FSc Pre Engineering

EXPERIENCE

Nov-2025 - Feb- 2026

Petalnex

MERN Stack Developer Intern

- Developing RESTful APIs using Node.js, Express, and MongoDB.
- Implemented JWT authentication, role-based access control (RBAC), and secure user flows.
- Built admin dashboards and user interfaces using React.
- Designed and optimized database schemas using Mongoose.
- Worked with Git, Postman, and modular backend architecture.
- Participated in debugging, feature implementation, and API testing.

SKILLS

- MERN Stack
- Mobile App Development
Flutter, Dart, Firebase
- Tools & Platforms
Git, GitHub, Postman
- Database & Cloud Services
MongoDB, Firebase
- Design & CMS
Figma, Canva, WordPress

PROJECTS

Mental Wellbeing App FYP

Tech: Flutter, Firebase

- Built a mental health platform with mood tracking, guided exercises, and routines.
- Integrated Firebase Authentication and cloud data storage.
- Added chatbot support and doctor profiles with direct contact.
- Implemented role-based access between doctors and patients.

Document Management & Access Control System (API)

Tech: Node.js, Express.js, MongoDB, JWT, RBAC, Multer

- Designed and built a secure RESTful API for managing documents with role-based access control (RBAC).
 - Implemented JWT authentication with access and refresh tokens.
 - Created user invitation flow: admin sends secure email link → user sets password → account activated.
 - Developed role & permission middleware (Admin, Editor, Viewer).
 - Built document versioning, audit logs, and activity tracking.
 - Enabled secure file uploads using Multer with validation and MIME-type checks.
 - Applied rate limiting, input validation, and logging for security.
 - Designed MongoDB schemas and optimized queries using Mongoose.
-
